AMPLIFi Remote for Android

Getting started

This guide will give you a brief overview of how to update your AMPLIFi firmware using the AMPLIFi Utility for PC.

Once complete, your AMPLIFi will be usable with both Android and iOS.

Note: iOS and Android users will still be able to update over Bluetooth to 2.0 and beyond.

If you do not have access to a PC, it is recommended that you find a friend with an iOS device to borrow for the update.

Download the "AMPLIFi Utility" for your PC

- Go to <u>www.line6.com/software</u> and select your AMPLIFi Device from the drop-down menu.
- Click "Get Download".

Connect your AMPLIFi Device to your PC

• Using a standard USB Cable, connect your AMPLIFi device to your PC.

Update your AMPLIFi Firmware

- Select the latest update from the list and click the update button.
- You may be presented with instructions to put your device into "update mode".

AMPLIFI 75 Firmware Version 1.0		Let's Get Started			
Wersion: 1.01.0 Release Date: 2014-06-20 16:25:28		Put AMPLIFi 150 into Update Mode			
IMPORTANTI	Less 🔨	1. Turn off AMPLIFi 150			
*This update will replace the four presets that currently reside in your amp.		2. While pressing and holding both the TAP Tempo button and the Tone Select button, switch the power			
*If you have customized these presets and wish to keep them, be sure to save them to My Tones in the AMPLIFi Remote app.		back on			
*Once this update is complete, you MUST perform a factory reset.		You will hear a quiet pop, and there wil be no lights on the unit.			
Please read the Post-Update Instructions (Info link above) following the completion of this update. These instructions will also appear automatically upon comp of the update.					
Wersion: 1.00.17x Release Date: 2014-06-19 14:34:37	Update				
Wersion: 1.00.16x Release Date: 2014-06-17 17:02:11	Update				
Version: 1.00.15x Release Date: 2014-06-13 13:50:50		• • • • • • • • •			
Wersion: 1.00.14x Release Date: 2014-06-10 14:29:45	Update				

Finish updating your AMPLIFi

 Once the update is finished, you may be presented with instructions to perform a "factory reset" (sorry, just this once!)

You're Almost Done...

Factory Reset Your AMPLIFi 150

lote: Performing a 'Facto he Settings->Preset Bac		ices all device pres	ets, with the fact	ory presets. You ca	an backup your de	vice presets by using
. Turn off AMPLIFi	150					
. While pressing a he power back on	nd holding l	both the large l	Master Volum	e knob and the	e Tone Select I	outton, switch
			(ON BACK)			
	•			AMPLIFi 150	\odot	
	•	000	000	0		

Connect to your newly updated AMPLIFi

• You can now pair the AMPLIFi to your Android Phone or Tablet by going into Settings -> Bluetooth

• Press the bluetooth button on the AMPLIFi and it will appear in your devices list. Tap it once and confirm that you wish to pair to the device.

Get AMPLIFi Remote on the Android "Play Store"

Open the "Play Store" App and search for "AMPLIFi Remote" Tap the tile and press "Install"

Play Store

On Kindle Fire, Open the "Amazon App Store"
